

It was something we never thought we'd see  
It could never happen to you and me  
An attack against all civilization  
An attack that shocked our nation  
Four airliners, all hijacked  
Fueled by evil, a merciless crime  
The worst terrorist act of all time  
The World Trade Center towers  
Symbols of our financial power  
Crumbling, falling, cascading down  
Concrete and debris, hitting the ground  
So many families torn apart  
A tragedy felt in all of our hearts  
If we're ever to overcome this devastation  
We must pull together as a nation  
To the victims' families, we send prayers & love  
As we seek guidance & hope from the Lord above  
May God bless you and your loved ones.
